

# SafetyCulture

Save Time. Save Lives

# Transform your inspections Drive your business forward.

Empower your frontline team to work smarter by working safely.

Mobile inspections

Instant reports  
and follow-up

Easy analytics

Dynamic API

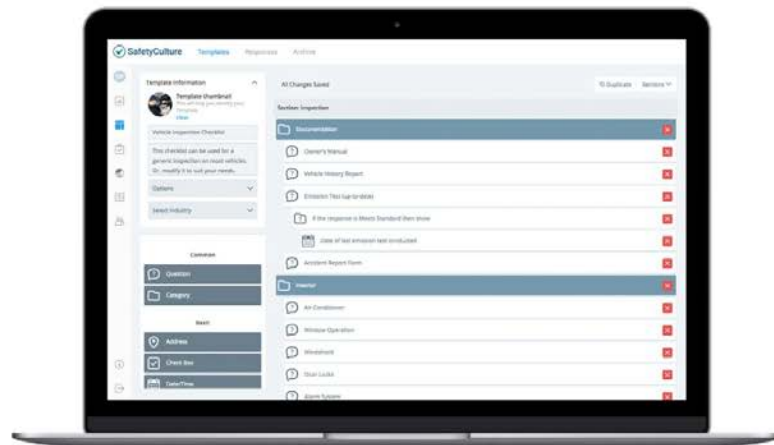

Over 8,000 companies in 200 countries have made the switch to intelligent inspections.

# Technology built for your frontline team

Transform a tedious task with technology your team will actually want to use.

Mobile-first digital inspections empower your team to complete more high-integrity inspections in less time — wherever they are.

Save an average of **18 hours per week** in labor costs.

## Seamless follow-up action

Equip your team to take immediate action when a problem or non-compliance is uncovered.

Don't wait to receive a report — resolve critical issues before they escalate. Assign a corrective action to the right person with priority levels, due dates, and instant push notifications — and track through completion.
