<th>High risk construction work</th>
<th>Working at Heights</th>
</tr>
</thead>
</table>

Control Measures

All workers must be equipped with the proper PPE. Ensure that the guardrails are properly installed to prevent accidentally stepping off the edge of the platform. Always maintain a 3-point grip when using the scaffold. Ensure that base was built in a strong foundation.

### Task 2

<table>
<thead>
<tr>
<th>High risk construction work</th>
<th>Confined space</th>
</tr>
</thead>
</table>
Control Measures

A series of atmosphere tests should be done by a trained worker. Also, consider walkaround watch who can call rescue for emergencies. Install proper ventilation system.

Task 3

Description of task
Maintain electrical cables

Take photo (Optional)

Photos

High risk construction work
Electrical installation

Control Measures
Ensure that the main power source is properly shut off. All equipment should also be properly grounded. Use insulated tools when repairing any electrical equipment.

Confirmation

Recommendations
Gather all teams before commencing work. Discuss and highlight the riskiest tasks to be performed for this project.
