Project Background

Hoover and Tarryn Medical Centre is a private hospital founded by Christina Hoover in 1998. The company is based in Houston, Texas and offers a variety of medical services such as physician care, inpatient care, outpatient care, hospital surgical services, and emergency services among others.

Project Overview

For this project, Hoover and Tarryn Medical Centre needs professional security guard service that can cover the following responsibilities: perform entrance and exit screening, execute emergency rescue and emergency management services, conduct security patrols for the whole premises, as well as monitor security systems. The project will be awarded to the agency that could cater to all the above-mentioned services, as well as provide highly skilled security professionals, both armed and unarmed. The initial contract would be until end of 2023.

Roadblocks

A possible roadblock is that as a medical center, our services are needed 24/7 and we operate 365 days a year to be able to provide quality care to our patients. The project will be awarded to the agency that will be able to provide security services all year round.

Evaluation Metrics

The evaluation criteria in choosing the most qualified agency for this project is discussed within our team and will be as follows:

- Years of experience in the security services industry (minimum of 5)
- Security services you can provide and whether they can meet our needs
- Past or current history of successfully providing quality services to similar or other industry
- Capability to provide 24/7 security services

Submission Guidelines

The RFP can be accessed and downloaded in our website, and once ready for submission, please send it to the email included at the bottom of this page. Subject should be: [Hoover and Tarryn RFP] - [Name of the company/agency].
